About the course

This is a very popular course that is informative and interactive. The course is delivered by a tutor who has over 30 years' experience as a Fire Fighter within the London Fire Brigade. During this session you will explore topics such as:

- Fire Development (theory of how fire develops)
 - Fire Spread
 - Fire Detection
 - Evacuation Procedures
- Developing an Action Plan and Risk Assessment to meet Fire Authority Regulations
 - Types of Fire Fighting Equipment
 - How to use fire fighting equipment, including using extinguishers
 - Range and limitations of use of equipment
 - Responsibilities of the Fire Warden
 - Escape plans and self-preservation in the event of becoming trapped in a fire, including how to protect family in the event of a fire at home
 - Employers contractual obligations to employees
 - Employees obligations.

You may book onto this course by:
