## Key Facts

### Level 2 Award in Principles of Health & Safety in the workplace

<b>Qualification Reference:</b>	601/5653/3
<b>Awarding Body:</b>	NCFE CACHE
<b>Guided Learning Hours:</b>	10
<b>Credit Value:</b>	1
<b>Level:</b>	2
<b>Tutor:</b>	Roy Sawh, Fire & Health & Safety Officer

#### **Aims:**

This accredited course aims to support learners to develop an understanding of the roles and responsibilities relating to health, safety and welfare in the workplace. Learners will also understand how risk assessments contribute to health and safety in the workplace and how to identify and control risks caused by common hazards. Learners will know the procedures for responding to accidents and incidents in the workplace.

#### **Process:**

During this accredited course learners will explore and develop an understanding subjects such as: how to recognise common workplace hazards and the harm or damage caused by such hazards; risk controls for common workplace hazards; the processes for carrying out a risk assessment and how risk assessments reduce accidents and ill health in the workplace; the importance of recording all incidents, accidents and ill health; and the responsibilities held by employers and employees. This course is led by a Fire Officer with over 30 years' experience within the London Fire Brigade.

#### **Objectives:**

Learners will:

- ✓ Understand how to identify and control risks caused by common workplace hazards
- ✓ Know how risk assessments contribute to health and safety in the workplace
